VOLUME XX—NO. 98 CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, MONDAY, SEPTEMBER 29, 1919 TWO CENTS

LOCAL HIGH SCHOOL TEAM WINS OPENER FROM CONNELLSVILLE

Visitors Were Outplayed In Every Quarter By Home Team

CHARLEROI TEAM SUPERIOR

The Charleroi High School football team opened the local season Saturday afternoon beefore a large and enthusiastic assemblyof football followers by defeating the Connellsville eleven in a most decisive manner, the final score being 13 to 0.

The superiority of the Charleroi team was made manifeest early in the game, when the locals made a touchdown and kicked a goal shortly after the opening of the game. They repeated the touchdown in the second period but failed at goal. In the third and fourth periods Connellsville appeared to take a brace and while outplayed in both periods managed to keep their goal from being crossed again by Chaarleeroi.

For the greater part of the game Connellsville was on the defensive, and at no time during the game were the visitors able to make any consistent gains. The work of the local line as well as the backfield was a revelation to the spectators as it must have beeen a surprise to the visitors, who were unable to penetrate at any point for any material gains.

On the other hand Charleroi played a consistent game, and appeared to be in better condition as it was mid-season. Their line plunging and end runs appeared to work with precision and accuracy, and there were but few times when they failed to gain the distance required. The first goal was made by Wagner, while McKenna, standing behind Connellsville's goal line, caught a forward pass for the second score. The local backfield composed of Hill, Weaver, Wagnes and Brown certainly promise great things luring the season, and are going to make competing teams go some to hold them.

Captain Menefee starreed for Connellsville. On account of an injury he did not play in the first quarter, but he was injected into the game in the second quarter and was in the contest the remainder of the game. He played a great defensive game, and was the mainstay of the Connellsville team. The line-up:

Charleroi—13		Connellsville—0
Webster	LE	Wishart
Underwood	LT	Critchfield
Graw	LG	Lucius
Williams	C	Yaw
Carson	RG	Strawn
O'Brien	RT	Dalton
McKenna	RG	Francis
Weaver	Q	Bufano
Hill	LH	Danner
Wagner	RH	Whipkie
Brown	FB	Martray

Substitutions—Charleroi, Dennis for Gray; Conneellsville, Menefee for Francis; Francis for Wishart.

Referee—Crellius; umpire, Smith; timekeeper, Gant; head linesman, Pollock.

Next Saturday the local team will go to Rochesteer, where it will play the High School team of that town. The management requests that all those who desire to make the trip with the team secure the necessary information from Prof. Lively, Principal of the High school or from William Dawson.

BOY INJURED WHILE RIDING ON TRUCK

A boy named Heinbaugh, of Bentleyville, was injured on Saturday at Ellsworth while riding on a delivery truck of the Stevenson bakery. He was riding on the running board and was caught between two machines, being badly squeezed about the body. He was taken to the Memorial hospital at Monongahela for treatment.

PRICE OF MILK IS AGAIN INCREASED

Announcement has been made that milk prices have beeen raised in Pittsburg, beginning October 1st, to 16 cents per quart, or nine cents a pint. This represents an increase of one cent a quart from the wagons of the distributors, which makes the retail price at stores 17 cents a quart and 10 cents a pint

In Charleroi the price of milk has been advanced to 18 cents a quart beginning with the first day of October, or two cents more than the price the Pittsburg people have to pay from the wagon distrbutors. Why the people of this locality have to pay more for their milk than the people who live in the city is a question many housekeepers are asking at the present time. All milk for the city must be transported long distance by rail, and from the rail-

[illegible] distributed.

Dealers supplying Charleroi drive from their farms and make the distribution direct, without any middleman getting any profit out of the transaction. This condition has caused many people to ask why milk cannot be sold in Charleroi just as cheaply as it is distributed in Pittsburg.

NEW AMERICAN RESTAURANT

Open for business at 523 McKean avenue. Only American Restaurant in town. Table and counter service. Everything clean and neat and our kitchen is open for inspection at any time. We invite you to call in and see it. Piper and Buchanan, proprietors. 94-t6-*

Position as housekeeper in widowers home Inquire 909 West Main street, Monongahela, Pa 98-t3p

Rally Day Services Were Most Successful in Years

Rally Day services, held Sunday in the Washington Avenue Presbyterian church, were possibly the most successful in recent years. The day was all that could be desired and a good program was given. The whole school assembled in the three rooms, down stairs, and as all had been decorated with rally day emblems, the effect was pleasing.

Mrs. Clifford Robertson was the pianist and Mrs. G. W. Stewart had charge of the promotion exercises. A special feature of the Cradle Roll exercises was the giving of rose buds to each little graduate as they passed through the gates. The large classes from the beginners, primary and junior departments were well trained and each received a diploma. Music and recitations were given throughout the program.

Bouquets were given to the oldest and youngest members present. The bouquet to the oldest was presented to George W. Phillips, while the bouquet to the youngest went to William Carson, Jr., a son of Mr. and Mrs. Fred Carson.

When the roll was made up it was found there were in the classes 360 scholars, while many visitors present were not included in the roll. The rally services throughout the day were largely attended and the day closed with all the workers very much encouraged.

Fire Destroys Tipple Of The Rider Mine Early This Morning

The tipple of the Rider mine, on Maple creek owned by the Warner-Yough Coal company, was destroyed by fire at an early hour this morning. How the fire originated Superintendent I. T. Mullen was unable to say, as it was of somewhat mysterious origin.

The fire was discovered about 2 o'clock this morning when the tipple house was seen to be in full blaze. The Charleroi fire department was summoned but after arrival it was found they would be unable to do anything because of the lack of water pressure. They laid a line of hose and attached it to the company water [illegible] but the pressure was insufficient [illegible] was doomed, unless some other means was adopted. In the meantime the Monessen fire truck, which had been summoned arrived but it could offer no assistance. Mr. Mullen then telephoned for the Donora department, which arrived at 11 minutes after 3 o'clock. The Donora truck is equipped with a pump and after connecting up the hose line which the Charleroi boys had placed, had the fire subdued in about 15 minutes, and saved the company several hundred dollars.

Two cars loaded with coal which [illegible] under the tipple and which were held in place by the retarder, were taken from their dangerous position while burning fragments of timber were blazing on top of the coal. The cars were dropped out and the brakes put on by employes, although the task was a most dangerous [illegible] the cars got away they would have gone over a derailing switch and tied up traffic on the street car line.

The tipple house was completely destroyed, but the bents under the picks still remain in place. They will require new timbers on top, where new stringers will have to be placed. All the necessary material is being ordered and work will begin at once to make the necessary repairs, which will require about ten days or two weeks. In the meantime about 150 men in the employe of the company will be idle while the repairs are being made.

HEAVY VERDICT AGAINST UNIONTOWN

In the Fayette county courts at Uniontown on Thursday a verdict was rendered against the city of Uniontown and in favor of W. J. Walters of Waltersburg for the sum of $5,092 damages and $504 expenses making a total of $5,596. The case of the plaintiff was that he had stepped from the safe pathway on the pavement on one of the streets of that town in order to give a woman pedestrian the right of way and that he slipped and fell on the icy obstruction, sustained a fractured hip which rendered him permanently a cripple Contributary negligence constituted the defense of the city, whose counsel maintained that the officers had done all that reasonably could have been expected of them under the circumstances to make the street safe for travel

ROB POOL ROOM SATURDAY NIGHT

The poolroom of Naylor & Gray on McKean aveenue, was entered some time late Saturday night, by thieves who got away with about $70 worth of tobacco and cigarettes, as well as about $18 in money Entrance was gained through the rear of the pool rcom. It is believed the robbery was committed by some one familiar with the location as a rear window on which there was na fastening was opened, which allowed the burglars easy access to the room. The shutter was lifted oc by the thieves, who apparently had no difficulty in getting in and out of the building.

Train up a child in the way he should go and then keep your eye on him to see that he doesn't break training before he enters the fight.

IMPRESSIVE SERVICES MARKED ANNIVERSARY OF ST. MARY'S PARISH

MADE AN EFFORT TO COMMIT SUICIDE

A man named McKee employed as manual training teacheer in the Ellsworth public schools, is reported to have attempted suicide on Sunday. The man is believed to have been temporarily deranged. He was taken to his home in Pittsburg Sunday evening by Ellsworth friends. His condition is not serious.

MANY MEN REPORT AT DONORA MILLS

Between 400 and 500 men returned to work in the Donora mills this morning, protection being given by the State police. There were many men on the streets at the time, but they were not allowed to congregate or to loiter and all picketing at the mill gates was prohibited. The mill management is inviting all former employes who so desire an opportunity to return and their old jobs will be given back.

Tuesday will be payday and all the men will receive whatever balance is due them. It will also be "hire and fire" day. As they are paid off each man will be asked if he proposes to return to work; if his answer is favorable he will be expected to return to the mill Wednesday morning; if he refuses his place will be declared vacant, and it is said the management will endeavor to secure some one else to fill his position. It is intimated that the number of men returning to work will be largely increased tomorrow morning. So far everything has been very quiet in the town, no disturbance having been reported up until noon.

MANY ATTEND THE IRISH MEETING

The meeting held in the Coyle theatre Sunday afternoon in the interest of Irish freedom, was well attended and the audience listened to some splendid addresses by several speakers. William J. Brenna, Esq., of Donora and Rev. Father Quinn of Roscoe, all made stirring speeches in behalf of the Emerald Isle and the freedom for which she seeks. Before adjourning a resolution was adopted a copy of which will be sent to Senators Penrose and Knox, and also to Representative Temple, asking them to use their influence in the furtherance of any measure that may have the freedom of the Irish people in view

There will be a business meeting of the members of the Monday Music Club at the home of Miss Nora Swan 521 Fallowfield avenue this evening at 8 o'clock. 98-t1p*

New Organ, Gift of Local Man, Dedicated With Fine Program

RECTOR PREACHES FINE SERMON

Especially impressive were the services at St. Mary's Episcopal Church yesterday morning, which marked the beginning of the twenty-first year of the existence of the parish, as well as the dedication of a new organ, the latter made possible through the generosity of Attorney D. M. McCloskey of this city. Rev. Gomer D. Griffiths, the rector was in charge and preached a very effective sermon on the subject, "Music, the expression of the expressionless" taking as his text the 13 and 14th verses of the fifth chapter of Second book of Chronicles.

An elaborate musical program had been arranged for the occasion, under the direction of Mrs. Warren Kinder, the organist. The regular choir was augmented by Prof. and Mrs. I. T. Daniel, Miss Isabel Dorbritz, Miss Delia Swan and Warren Kinder. Among the musical offerings were Dudley Buck's "Sing Alleluia Forth," with incidental solos by Mrs. Daniel, Warren Kinder and Prof. Daniel; "Love Divine," from Stainer's cantata, "Daughter of Jairus," very effectively rendered by Mrs. Daniel and Mr. Kinder; "No Partings Yonder," from Gaul's "Holy City," sung by Mrs. Daniel, Miss Dorbritz and Messrs. Kinder and Daniel and "My Hope Is in the Everlasting," from Stainer's "Daughter of Jairus," which was well interpreted by Mr. Kinder.

The new organ, which is an Estey of double reed construction, is also one of unusual sweetness of tone, and quite large enough for all that will be required of it in St. Mary's Church.

Rev. Gomer D. Griffiths, who assumed charge of the parish but a few months ago, coming here from Carnegie, Pa., has demonstrated that he is an indefatiguable worker. The impression he has made among his parishoners is such that each is willing to lend a helping hand. Several improvements have been made to the church property since his advent to Charleroi and others are to follow. The church has been treated to a coat of pamt, a new wire fence has replaced the old picket one, a new heating furnace installed and last but not least, is the fine organ which was dedicated yesterday.

Yesterday's attendance included many parishioners from Ellsworth, Monessen and other adjoining towns.

You may have the idea that the people are being constantly oppressed, and maybe they are, but never get the idea that you are being oppressed if you care to have friends.

Men rail at the vanities of women but you never notice them paying much attention to the kind that haven't any vanities.

SOMETHING HAS GONE

Something has gone from the earth that was here only a week ago—something intangible but very real, nevertheless; something we scarcely thought about Summer has departed The skies are as blue as they were in mid-August, the sun is as bright and the fields are as green. But there is a new twang in the morning air and a haze hangs over the fields toward evening that speaks of approaching autumn.

Something new is here and we turn from our pleasure seeking and vacationing in far places to face with zest the work from which we shrank when the spell of summer was full upon us and the lure of the open was not to be denied.

Now comes the season of preparing for the long, cold winter. There is the home to be made tight against the freezing blasts, the coal bins to be filled and the wood piles to replenish. Summer has her joys, but autumn is delightful and winter is not without its charms and variety is the spice of life.

TEACHING NEW WAYS

High prices are teaching us many things. For example there is the chap who used to have four pairs of shoes. Now he gets along with two. There is the other fellow who would have scorned a few weeks back to be seen on the streets with a patched or mended suit, who now fares forth to business boasting that he has on a last year's outfit repaired and pressed for another winter of hard service. and there is the man who now takes his old hat to a cleaner.

We are learning new ways, which, while they may be very profitable to us will not help trade when things get back to normal. The thrifty practices of necessity in all likelihood, will become habit with us. There is such a thing as killing the goose that lays the golden egg, and any man who adds a penny needlessly to present prices is doing so to the hurt of his trade later.

One of the various parties into which the Socialists at Chicago recently divided themselves adopted resolutions unqualifiedly approving the Soviet system of Russia—including, it is to be assumed, the repudiaton of debts and the communization of women—and compared the Bolshevist revolution with our own Revolution of 1776. That might be a little shocking to American patroitic sensibilities if the Secretary of War, who is one of the best public servants President Wilson ever knew, had not already compared Washington's army in the Revolution with Pancho Villa's Mexican brigands. On the whole, the Socialist utterance was a little the less indecent of the two.—Harvay's Weekly.

THE REASON WHY

It is an old story how much breakage American goods have suffered when shipped to Latin America and elsewhere because of their "bad packing." And now it develops that one powerful contributing cause to that breakage all along has been that they were carried on German ships and our Geerman competitors took good care that anything breakable from American should be broken. —Greenville News.

General Denekine and his Cossacks continue to rout the Bolsheviki out of the Ukraine. But there is no sign of a movement toward Petrograd from the Ukraine. We assume that this means that the anti-Bolshevists have given hopes of dislodging the Bolsheviki from Moscow this year. The Bolshevists will have a hard time keeping soul and body together during the long winter months unless they may be able to do it. The Bolshevists at Moscow have shown a tenacious staying power.

When you die it doesn't matter what you were worth, but did you have worth.

The living the world owes you generally is not the kind you want.

Tell Fortunes With Bones.

In the Transvaal the belief in Kaffir doctors and their wizardry has not died out. Nearly every old Kaffir has always with him a bag of bones, knuckles and joints of animals. With these he pretends to be able to foretell the future. He throws the "dolos," as they are called, and then reads out the omens. Should a white man wish to confer with the oracle he must throw the bones himself. Many white men firmly believe in the ability of the Kaffir doctor to cure them from sundry ills and in Rhodesia there have been many cases where the Kaffir doctors have saved whites from the ravages of the terrible fevers that rage there, in addition to coping successfully with toothache and other ills.

Famous English Honey.

One of the most sought after products of Lakeland is its famous heather honey. The French claim that the rosemary honey of Narbonne is the finest in the world, but that of the English fells may challenge a sporting comparison Its only fault is that there is so little of it. A development of bee keeping on the extensive American system, under the management of skilled apiarists, could increase it a thousandfold, and provide the public with an unequaled medicinal food for invalids and children. With fruit culture, dairying ought to be combined to provide fertilizing material, and soldier settlers could buy in the Lakeland Shorthorn, one of the finest dual purpose cows in existence.—London Mail.

Praise Japanese Music.

The song which Japanese workmen sing when raising the rooftrees of a new building ranks with the purest music in the world, according to Henry Eichheim, a Boston composer, who is spending a year in Japan studying oriental music. He said in Tokyo: "The orientals have evolved by the process of elimination a perfect philosophy, a perfect art and a perfect music. If we could think as orientals think, we would realize the absolute simplicity and perfection of their art life." As he goes about Japan he takes notes on the primitive music of laborers and on the sound of temple bells, with their beautiful overtones, with the view of making them themes for his compositions.

Icelandic History.

For 400 years Iceland was an aristocratic republic, ruled by the great families of the early settlers, among whom was a Norse queen of Dublin. A 14 days' open air parliament of all Iceland met annually in June at Thingvellir, and the speaker of the law (log-soguman) used to recite from memory the whole of the unwritten, elaborate laws of the country to the assembly. In 1262-1264 Iceland was united to Norway, and in 1380 with Norway to Denmark. The Danish rule ruined the island economically, but since the granting of self-government and the re-establishment of the old parliament, in 1874, at Reykjavik, great progress has been made.—National Geographic Society Bulletin.

Unique Philippine Fruits.

There have been found in the Philippines two fruits entirely unknown to Europe, and even to America. One of these is the durian, which grows on a lofty tree somewhat resembling an elm, is about as large as a cocoanut, has a shiny shell and contains a creamy pulp which combines some of the flavors of delicious custard with those of a fine cheese. American soldiers in the Philippines dubbed the durian the "vegetable limburger." The other rare fruit is the mangosteen, but the exquisitely flavored liquid it contains has not yet been successfully preserved for shipping.

Prehistoric Birds.

The diatryma of the Rocky mountain region, a fossil ostrichlike bird, of which the American Museum of Natural History has recovered bones enough to complete restoration of the skeleton, is shown to have been nearly seven feet tall, with a massive neck, a head 17 inches long and wings too small for flight. Its powerful beak is believed to have served in procuring its chief food from fresh water clams. The bones were obtained from the bad lands of the Big Horn basin, Wyoming, where some 3,000,000 years ago, in the Eocene period, this giant of North American birds must have been a contemporary of the eohippus, the pigmy four-toed horse.

July 30 is the birthday of Samuel Rogers, who was born in 1763 and died in 1855. For fifty years the world of art and letters flocked to the entertainments given at his beautiful London house in St. James' place. It was said that an invitation to one of his breakfasts was as good as a formal introduction to literary society. He was a poet of some merit, but he was more famous—and is better remembered—for his caustic wit. At the same time he was extremely generous. "He certainly had the kindest heart and the unkindest tongue of anyone I ever knew," said Fanny Kemble.

Very Broken.

Athlete—"Did—I—break it, doctor?" Doctor—"I will be plain, sir. The arm is broken, the collarbone crushed, the skull is fractured—" Athlete—"No, no, no! The—did—I—break the—" Doctor—"What, sir?" Athlete—"The rec—"

IN VALLEY OF THE SHADOW OF DEATH

The following is a statement made by Mrs. George Arnold, who resides at No 25 Boggs street, Mount Washington, and is a well known business woman of Pittsburgh. She says:

"For a number of years my husband has been in a very poor state of health and a year ago he became very ill. It was a general breakdown and his stomach, liver and kidneys were in very bad shape. He had no appetite, and could not keep any solid food in his stomach. Finally he became so bad that he was not expected to live and we were completely discouraged, as he had tried all kinds of treatment and medicines. As a last resort I insisted that he try Plant Juice, as it had relieved me of a bad case of stomach trouble, and it seemed to be the only hope. From the first dose it seemed to help him and since he has continued to use it I am glad to state that he is a well man, no more aches or pains, his stomach is in fine condition, so he can eat any kind of food, his kidneys and liver are working well, and he says he never felt better in his life. We are both very grateful for his recovery and will be glad to recommend Plant Juice."

There are people everywhere who are half-sick, nervous; who are depressed in spirit, lacking in vitality, dull, morbid, timid; theey have pains in the back and hips, headaches, cold feet, dizzy spells, spots before their eyes, discolored skins, blotches, pimples, poor circulation their food does not assimilate and there is derangement of the liver, kidneys and blood, as well as the stomach These conditions are the result of modern methods of living, and if Plant Juice is taken in time it gves almost immediate relief and will lead to a speedy cure in practically every case.

Plant Juice is sold in Charleroi at Henning's Drug Store.

Really Not Their Fault.

Marjorie and Clea are prim little sisters, and as there is a baby brother mamma has some trouble putting on the last touches and getting them away to school mornings. In the interest of discipline their teacher was obliged to lecture them on tardiness and next morning they were late as usual. She waited for them at the door, trying to look stern, but Clea upset all her dignity and cut her lecture short by observing: "Well, we can't help it if you ring the bell too soon."

Oil Well Flow Increased.

An electrical method of carrying warmth to the bottom of oil wells has been found in many cases greatly to increase the flow of oil, according to Popular Mechanics magazine. The heating process decreases the viscidity of the oil, usually occasioned by the admission of air to the well and the cooling of the rock bed. Minute crevices and capillary channels which afford easy passage to warm thin oil become quite impassable if the oil gums.

Livingstone Memorial.

One of the most curious memorials of Livingstone is the "Name Tree," near Victoria falls, on the Zambesi. On the trunk Livingstone cut his initial and the date 1855 on the day of his first visit to the falls. In his book, giving an account of this, Livingstone says: "This was the only instance in which I indulged in this piece of vanity."

Auto Service in Porto Rico.

Porto Rico is about 100 miles long by 40 miles wide, and autobus lines furnish satisfactory service in covering the parts of the country where railways are not available. For the benefit of tourists and others a daily automobile service connects San Juan, on the north, with Ponce, on the south of the island, a run of five hours.

Painful Insinuation.

Little six-year-old, to young aunt showing him a family portrait: "What a funny way that gran'pa is dressed, auntie!" Auntie: "That is the way gentlemen dressed more than a hundred years ago." Six-year-old: "And when gentlemen dressed that way what did you wear?"

NO FEE ALLOWED TO PUBLIC OFFICIALS

Officials of the State Department of Public Instruction have been informed by Dr. Thomas E. Finegan the new State Superintendent of Public Instruction, that when any member of his staff or representative of the department speaks at teachers' institutes, dedications of school buildings, commencements of other public meetings no honorarium isto be accepted Dr. Finegan says that such functions are to be regardeed as a a part of official duty. He says that "the necessary traveling expenses of employes of the department will be paid by the State when such officers go out to represent the State on official matters"

SENATOR KENYON TO VISIT MONESSEN

According to information received last week Senator Kenyon, head of the Senate committee investigating the steel strike, will be in Monessen some time this week to make a personal investigation into the local situation He will hold hearings in Donora and Monessen, and it is expected that a number of millworkers and citizeens wll be summoned to give testimony. Grave charges have been brought against W. Z. Foster, secretary of the twenty-four unions committee which met in Pittsbhrg recently and a careful investigation will be made of the methods employed by this organizer in his former affairs.

MONESSEN DEFEATS SOUTH BROWNSVILLE

The football game on Saturday last betweeen Monessen and South Brownsville took place at Fayettee City because of the inhibition of all public gatherings in Monessen. In the first half Monessen scored 21 points while South Brownsville failed to win a point. In the beginning of the second half Bonessen scored another touchdown, when South Brownsville gave up the contest.

A series of dances will start Friday October 3 at City Hall Lock Four Dancing from 9 until 1. Wilson's 5 piece orchestra. 98-t5-p

LOCATES GRAVE OF DONORA SOLDIER

George W. Allen, borough clerk of Donora, and a brother of Theo. J. Allen, of Charleroi, has received a letter from Robert A. McKean, of Pittsburg, a former Charleroi man, telling of his visit to the grave of Corporal Charles Howard Allen, who was killed in France, September 6, 1918.

Mr. McKean is the European representative for the Marshall-McClintic Corporation and is located in Paris. Recently he made a trip to Fismes in order to locate the grave of Corporal Allen. He writes that the young soldier is buried in an American cemetery located south of Fismes about ten minutes walk from the station and adjoins the old burying ground of the town. There are about 1700 American soldiers buried in this plot.

It may be all right to laugh at the mistakes of others, for it's almost a dead certainty they're laughing at yours.

All the feeble-minded are not in asylums. Some of them profess to understand international politics.

Until the mothers of the land strike for shorter hours, the republic won't fail.

"Inventor" of Pork and Beans.

An eccentric Englishman, Daniel Day Good, is accredited with the invention of pork and beans. The first Friday in each July he would assemble a party of friends under an oak in the forest and feast them on bacon and beans. From this festival grew the popularity of the dish.

Concerning Names.

Said the observing cuss, "When an actress starts out to make a name for herself she has to think up a good one to start with before she makes it."

English Surgeon in Civil War.

Sir Charles Wyndham, the famous English actor, served as a surgeon in the American Civil war.

Optimistic Thought.

RECOVER BUICK CAR IN CLARKSBURG

The Buick touring car stolen last June from Mrs. Ray Motz, of Monessen at her country home on the Monessen-Belle Vernon acreage has been recovered is Clarksburg, W. Va., where it had been sold and rebought by a Fairmont man for $400, who was said to be paying $50 monthly to the Clarksburg man.

The authorized agent for the Buick cars in Clarksburg lost considerable time and sleep trying to figure out how a bran new Buick car could be sold in his territory and he not figure in on the commission end. An investigaton was started and the car soon branded as stolen property.

The authorities at Clarksburg gave a hint that they knew who sold the car in Clarksburg, and further that he is a Monessen man

The car has been taken over by the Pennsylvania Indemnity Exchange, with offices in Pittsburg, and the Clarksburg and Fairmont men involved in the deal will lose all the money they invested. Mrs. Motz's claim on the car had been paid in full by the Indemnity Exchange, and it is probable she will buy it back as she has the first option. Interesting developments may follow a further investigation of this robbery.

INJUNCTION IS MADE PERMANENT

In the matter of the suit of the Public Service Commission of the Commonwealth of Pennsylvania, against Mike Kuricz to enjoin him from operating a certain public service motor vehicle between California and Daisytown, a final decree has been made by the Washington county courts. The preliminary injunction heretofore granted is made perpetual and the defendant is enjoined from carrying on this public service operation of a motor vehicle until he shall have obtained from the Public Service Commission a certificate of public convenience as provided by law.

MRS. SANFORD'S MESSAGE TO WORKING WOMEN

Laurel, Miss. — "Eight years ago I was suffering with pains and weakness caused by a female trouble. I had headaches, chills and fevers, and was unable to do my work part of the time. Lydia E. Pinkham's Vegetable Compound was recommended to me and I took twelve bottles of it, and my health has been good ever since. I am able to run the machine and do dressmaking besides my housework. You are at liberty to publish my letter if it will help some poor suffering woman." —Mrs. J. C. SANFORD, 1237 Second Ave., Laurel, Miss.

Thousands of women drag along from day to day in just such a miserable condition as was Mrs. Sanford, or suffering from displacements, irregularities, inflammation, ulceration, backache, sideache, headache, nervousness, or "the blues."

Such women should profit by Mrs. Sanford's experience and try this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, and find relief from their sufferings as she did.

For special suggestions in regard to your ailment write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their long experience is at your service.

Thousands Exterminated

Tape-Worms With Head

Thousands are suffering from tape-worm, but are treated for some other disease without getting any result.

A SURE SIGN of the presence of these parasites is: Passage of round, longitudinal or pumpkinseedlike particles or other worms.

Suggestive signs are: Pale, bloated appearance, dark rings under the eyes, emaciation, continuous spitting, coated tongue, loss of appetite, with occasional greediness, indisposition after taking certain food, as: Herring, Onions, Vinegar etc., even spells of fainting with an empty stomach, appearing indolent, raising of obstruction in the throat, sour stomach, heartburn, pain stomach, head-ache, humming in ears, with ing of having a heavy moving mass in the bod cutting pains in intestines, rumbling and wavelike movements, palpitation of the heart, exhaustion, heariness in limbs, sediment in urine, etc.

In addition thereto, may exist sympathetic disturbances which sometimes assume a grave character, hemorrhages, menstrual irregularities, hysterical fits, choreic convulsions and even epileptic attacks.

MY METHOD EXPELLS THE TAPE-WORM

within one to four hours, without danger, painlessly, no fasting, no detention from home or work.

Get All the Rest Possible.

Remember always to relax when no activity is required of you. When you sit down, rest all over — do not choose a rocker and waste your energy propelling it to an invisible destination; nor tap your fingers on the chairarm, nor finger the buckle at your waist or the chain about your throat; nor tie your feet up in bow-knots, when they should rest easily on the floor. If you think about it you will be amazed to find how much real rest time you have always wasted.

Pulque Trains in Mexico.

Pulque the national drink of Mexico, is made from the juice of the maguey plant, large tracts of which are cultivated outside the City of Mexico. As a rule there are about eight hundred plants to the acre. The juice is extracted by the peons. It is shipped into town in long trains much like our milk trains here. The white liquid tastes like yeast and the consumption is so great that it is equivalent to two quarts a day for each person.

Silverite a New Metal.

A new development in the alloying of aluminum with other metals has just been accomplished by the production of "silverite." This metal is something entirely new and is composed of a mixture of aluminum and copper, zinc and steel in varying proportions, according to requirements. The alloying of steel with aluminum is somewhat startling and at first thought seems to be impossible, yet it is successful.

WORTHY OF STUDY BY ALL

Lessons Taught in the Book of Ruth Should Find Comprehension in Every Mind.

The Book of Ruth is the greatest pastoral idyl in literature. It is founded on loving kindness, the loving kindness of the Moabitess revealed to her family, and the loving kindness of Boaz, the wealthy Israelite, to Ruth, his kinswoman. It also contains the germ of that great-heartedness which is the center of the gospel of Christian love.

It is a book that opens with tears and famine and ends with the sound of wedding bells. The story turns upon the straightforwardness of Boaz, who showed kindness and manliness to Ruth, a member of a nation that was Israel's foe, and in that kindness founded a new house, the house of Jesse and David, the royal line that begat a greater than David.

It was first the mingling of the blood of the Jew and Gentile, symbolic of the cosmopolitan width of the Christian religion. It was the sign that that religion was not to be founded upon wealth, or upon social caste, but upon the large, wholesome love of the human heart. Boaz is immortal among Bible heroes for his kindness, his plain, everyday generosity, his sense of protection and care for the lonely, unprotected Moabitish girl, his dead kinsman's wife, who in her poverty gleaned in his harvest field after the reapers. Boaz gave order to his reapers that they should allow her to glean even among the sheaves of barley, and by his large-heartedness gained a wife, and, more than that, made a place for himself in that immortal company who are renowned for naught but for being kind.—Christian Herald.

ONLY SURE CURE FOR COLDS

London Newspaper Asserts That Evil Must Be Fought With Practically Its Own Weapons.

Doctor Johnson, knowing nothing of microbes, thought he had crushed the story of the cold that strangers bring to St. Kilda by asking: "How can there be a physical effect without a physical cause?" Then he proceeded to make merry. The arrival of a ship full of strangers, he laughingly supposed, would kill the inhabitants of the island; "for if one stranger gives them one cold, two strangers must give them two colds, and so in proportion." In vain did believers in the story argue that it was annually proved upon the arrival of the owner's steward, which always resulted in a cold for all the islanders. "The steward," replied Johnson, "always comes to demand something from them; and so they fall a-coughing."

The proper cure for a cold, which always seems to have baffled the doctors, is—cold—on the principles of homeopathy. The only sailors in the Crimean days who escaped sore throats were those who could not get mufflers. The members of the Scott expedition never got a "cold" until they had left the frozen Antarctic and reached civilization. We should establish the refrigerating chamber as antiphon to the Turkish bath for cure of colds.—London Chronicle.

Solomon as Naturalist.

There is an odd reluctance upon the part of many people to go to the ant, the water-bug, the beetle and other "invertebrate" or backboneless creatures, to consider their ways and be wise. Solomon was a learned naturalist of his day and perhaps the first animal behaviorist of all time.

Not alone ants and bees taught him much, but all insects, beasts of the field and birds of the air contributed to his wisdom. If Solomon were alive today, he would more than glory in the domain of experimental research into the behavior of the lower creatures. He would no doubt write a down-to-date volume of proverbs founded upon the learning abilities, the memory and the behavior in general of fleas, lice, flies, gnats and other insects.

Value of Old Coins.

In the public mind a coin more than 50 years old is hoary with age and so rare as to be almost priceless, but a silver dollar of 1795 is actually worth no more than $2 to dealers, and then only if it is in an excellent state of preservation, for a great many of them were coined. A half dollar of 1803 is worth as much as 15 cents more than its face value, but collectors and dealers find that there are so many of them in circulation that there is no profit in buying and selling them. In fact, a person might have a hundred United States coins of different denominations and dates, no two alike, but all more than 100 years old, which would be worth to a dealer not over $10 above their face value.

Reasonable Advance.

There is a young author in Baltimore who is determined to achieve fame in the writing line if it takes his whole life. Accordingly, he is even willing to defray the cost of putting on the market the numerous novels he writes from year to year.

On the occasion of his last visit to his publisher, however, he was somewhat vexed, a rather unusual thing for him. "Why," asked he, "do you charge me more this time than before?"

"Well," said the publisher, with the utmost frankness, "the compositors were constantly falling asleep over your last novel."—Harper's Magazine.

Krew-Pina Will Relieve You Overnight!

WHY do you take chances with colds or infection, when a 25c jar of KREW-PINA will remove the trouble entirely? That cold of your's may develop any minute into Pneumonia, or your hurt or burn into blood poisoning, and once it gets this far, the odds are against you. One application of KREW-PINA before retiring will break your cold and prevent Pneumonia or other serious developments, and it immediately kills all infection and heals the hurt.

KREW-PINA is excellent for Catarrh, too. Simply keep a little ointment in the nostrils and your head will be clear. It has a pleasant odor and will not blister the skin. A powerful, quick-acting ointment—splendid for Croup, Coughs, Asthma, Catarrh, Tonsilitis, Stiff Neck, Headache, Sprains and many other internal or external uses. Ask your druggist today—25c.

Don't light the furnace, then open the windows

Of course you must have warmth on cool autumn days.

But that's no reason for lighting the furnace in the morning and then opening the windows at noon to let the surplus heat out.

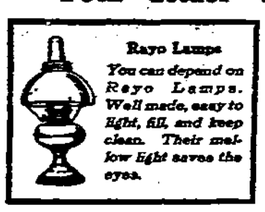
A Perfection Oil Heater bridges the heating gaps between summer and winter. Its radiant heat quickly warms a room and you can carry it to any part of the house.

PERFECTION OIL HEATERS

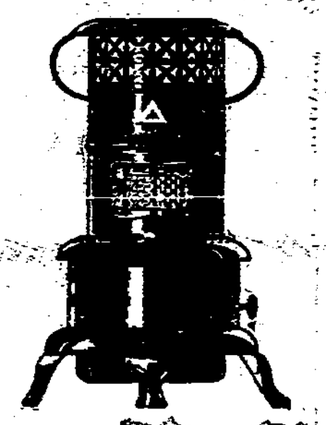
It will save a full month's supply of coal during the fall and help reduce the winter's fuel bill as well.

Smokeless, odorless and absolutely safe. You *can't* turn the wick too high.

Your dealer will gladly show you the various models. Don't be satisfied with any heating device less efficient, less convenient or less economical than a Perfection Oil Heater.



Rayo Lamps
You can depend on Rayo Lamps. Well made, easy to light, fill, and keep clean. Their mellow light saves the eyes.



THE best oil for your Perfection Oil Heater is Atlantic Rayolight. One gallon burns for ten hours. Best for Rayo Lamps too. Costs no more than ordinary kerosene.
